OUR MISSION

To empower individuals, especially youth, to lead in the response to climate change and other environmental challenges facing local and global communities.

WHAT WE DO

We assist diverse organizations, including schools, households, local governments, and businesses to reduce their environmental footprint. Through establishing partnerships in our community, we develop, implement and oversee educational programs and workshops that promote environmentally sustainable behaviors among all age groups with particular emphasis on K-12 students.

Accomplishments Since Inception

Green Schools Challenge 2018-19 Highlights

- 114 schools registered in Miami-Dade and Broward counties
- 50% registered as Title 1 (receiving federal funds for low-income students)
- 4 teacher professional development workshops held
- 850 teachers actively involved in the program
- 100,000 students took the ‘environmental sustainability’ message home
- 150 teachers trained at the professional development workshops

WE-LAB Program Highlights

- 93 workshops held in Miami-Dade and Broward counties
- 2,910 community households participated in the workshops
- 99% of workshop participants found workshops ‘Very Useful’

Accomplishments Since Inception

6.4 > 1.4 > 218,300 > 2.18

- Million gallons of water saved
- Million kilowatt hours of electricity saved
- Utility cost savings
- Million pounds of CO₂ emissions reduced or offset

Green Leadership Grants 2018-2019

- 23 grants totaling $14,000 were given to GSC schools
- Over 200 students were involved implementing the projects
- Projects implemented educated more than 1,200 K-12 students
- 100% of participants said the program developed leadership skills and empowered the youth

Green Leadership Grants have helped schools fund:

- Fruit and vegetable gardens
- Electric hand dryers for school bathrooms
- Water bottle filling stations
- Rain barrels for water collection
- Greenhouse construction
- Recycling collection bins
- Composting programs
