

JOIN OUR 2014/15

SAVE ENERGY SAVE MONEY

Healthier Students and Environment. Efficient Buildings and Community

It is our honor to invite all K-12 public, private, and charter schools to participate in the Green Schools Challenge (GSC). The GSC involves students, teachers and school staff in designing and implementing environmental and energy solutions at their school. Students will learn about environmental sustainability and build leadership skills by getting involved in real world, no-cost solutions, and organizing environmental campaigns and Eco-Summits.

The GSC provides clear guidelines, motivating incentives, and strong support to help schools reduce their carbon footprint, save energy and save money. Your schools' cost free participation in the program will deepen the impact the youth play in transitioning towards a more sustainable society.

Applications for the 2014/2015 GSC program are being accepted now for a limited time only.

Program Features

- ✔ Support to GSC participating schools and teachers through site visits, emails, and newsletters.
- ✔ Master Plan credits offered in September for attending a professional development workshop.
- ✔ GSC school representatives are invited to attend a mid-year planning meeting.
- ✔ Successes are celebrated in an end-of-year Awards Ceremony.

The Benefits

- ✔ Helps schools reduce utility costs by becoming more energy and resource efficient.
- ✔ Increases environmental literacy.
- ✔ Develop leadership skills in young people.
- ✔ Fosters long-term sustainable behaviors.

How to Participate

- 1: Download and fill out the application form on next page and submit to Dream in Green.
 - 2: Attend a Professional Development Training Workshop in September. First and second year GSC school representatives will learn how to involve students and staff in sustainability activities.
- NOTE:** Returning teachers from GSC schools must watch the GSC Training video to get started with program implementation.
